NUM. 667

FRIDAY, AUGUST 12. 1737.

N^o. 665.

Boston, May 30.

The SPEECH of his Excellency JONATHAN BELCHER, Captain-General and Governor in Chief, in and over his Majesty's Province of the Massachusetts-Bay in New-England, to the General Assembly of the said Province, at Boston, May 27, 1737.

Gentlemen of the Council, and of the House of Representatives,

HIS being the first Time of my Meeting a General Assembly since the Arrival of the Spring Ships from England, I congratulate you upon the happy Tidings of His Majesty's Preservation in the violent Tempest he met with, in his Return from his German to his British Dominions; as also upon his Recovery from a late dangerous Sickness: And I need say no more to lead you into proper Expressions of Loyalty and Duty to His Majesty, and to his Royal Consort our Most Gracious Queen, on these signal Occasions.

I have lately received a Letter from the Right Honourable the Lords Commissioners for Trade and Plantations, inclosing an Order from His Majesty's Most Honourable Privy Council, respecting the Settlement of the Boundaries between this Province and that of New Hampshire, the Copies whereof I have directed the Secretary to lay before you. And as I have been greatly concerned for the Borderers on the Lines, who have already endured many Hardships, during this long unhappy Controversy, I shall with great Pleasure do every Thing on my Part, that His Majesty's gracious Intention of ending this Dispute, may be carried into Execution; and I hope there will be nothing wanting in you to bring the Affair to a good Issue, and that this Assembly will take effectual Care to stop all Process in the Law, with respect to any Dispute the Inhabitants near the Lines may have one with another, till the Boundaries are fixed.

I am sorry to have Occasion to mention the late Disorders and Tumults that have happened in the Town of Boston; and if such open Violences are not seasonably checked and curbed by the Legislature, you must expect they will prevail to the Destruction of all good Order and Government, as they have already to the attempting a new Sort of Robbery, by wicked Persons writing anonymous menacing Letters, to extort Money from their Neighbours:—And before I go from this Article, I must observe, That upon Reflection, you cannot but be sensible it now requires the Care of this Legislature, to prevent the atrocious Crime of Man-stealing.

Upon Complaint made the last Year to this Government by the Penobscot Indians, respecting the Settlements then making in George's River, the General Assembly had a Conference with a Number of the Delegates from that Tribe, the Result whereof was to their good Satisfaction: Since which the Persons concerned there, have met some of those Indians in that River; and what passed between them I have ordered the Secretary to deliver to you, that you may judge how much it is for the Peace of the Province, and for the Safety of the King's Subjects, that we honestly and justly observe all Treaties and Agreements made with that People.

You are sensible the Law for giving a Bounty on Hemp expires this Year; and unless it be renewed for some further reasonable Time, I am afraid the raising of that Commodity, which might be very advantageous to our Mother Kingdom and to this Province, will in a Manner entirely fail, thro' the great Charge with which it is attended.

I have formerly mentioned to the General Court, that a Number of able-bodied skilful Men might traverse the Woods in our most distant Frontiers, in order to gain a good Knowledge of the Country; and that some capable Persons might be employed at the Publick Charge, to draw a correct Map of the whole Province. These Things being faithfully effected, I am persuaded would be of lasting Benefit.

The Excise Act being expired, you would do well to consider, whether it might not be much more to

the Advantage of the Province, to have it farmed for the future, as is practised in most Governments.

Since no Law was passed in the last Assembly against intemperate Drinking, I once more seriously recommend to you the Care of this People, lest they be delug'd in spirituous Liquors.

In Duty to the King, as well as in Justice to myself, I am obliged to lay before you, how great a Sufferer I constantly am by the little Value of the Bills of Credit, in which the annual Grant for my Support has been confined to 3000 l. not being 600 l. Sterl. and if you look back on the Difficulties and Charge the Province has undergone on this Head, and the repeated Assurances they have made to the King, of giving Me an ample and honourable Support, I hope you will now come to a just and equitable Consideration of this Matter.

I have a sensible Share, Gentlemen, of the Satisfaction you take in the continued Justice and Goodness of the Crown to this Province, while I consider the Privileges they enjoy by the Royal Charter, and which will be always well secured by our dutiful Behaviour to his Majesty and his Royal House.

May 27, 1737.

J. BELCHER.

Last Thursday arrived here Capt. Jones from Bristol, who brought over several Transports (which we hear are to be sent to Virginia.) These Transports we are informed, had agreed among themselves, that as soon as they made the Land, they would murder the Vessel's Company, burn the Vessel, and get ashore with the Boat; but having a Mistrust of one of the Gang, they would not suffer him to go upon the Deck lest he should discover their hellish Design; the Person of whom they were diffident us'd to write Copies for a Lad that was on board, and the Day before they made the Land, his Copies being all wrote out, he went down the Hold to this Person to set him more, which he did, and wrote for the Copies the Substance of the Plot design'd, which the Lad, at his Desire, shew'd to his Master, who as soon as he read it, put himself and People upon their Guard, and secur'd the Fellows from perpetrating their execrable Design.

We have Advice from Annapolis Royal in Nova Scotia, That Lieut. Amhurst's House was set on Fire and burnt down to the Ground, with most of his Household Goods and Effects, on the 19th Day of April last, by one Isaac Provender, his bound Servant, a Boy of Ten or Eleven Years of Age, as he confess'd to him, and to the Lieutenant Governor and Council conven'd on that Occasion, who have order'd the said Boy to be kept in Prison till further Orders.

We hear from the hither Part of Connecticut, that last Monday was se'nnight, being a clear Sky and pleasant warm Weather, about One o'Clock in the Afternoon, they felt a considerable Shock of an Earthquake.

To Persons of either Sex Afflicted with any Species of the PALSY, or other NERVOUS DECAYS.

NEVER were NERVOUS DISEASES,

PARALYSIS, and PARALYTICK DISORDERS so frequent as of late they have been, nor have the usual Remedies been found adequate to those pertinacious Distempers. This occasioned a Physician, who employ'd his Thoughts much concerning them, to adapt a Medicine, a Sovereign Elixir, peculiar to, and effectual for, the Palsy, and all other nervous Complaints now reigning, which after he had experienced vast Numbers of Persons of both Sexes, and always with surprising Success, even to as infallibly to cure by it the Palsy, and all Paralytick Effects and Nervous Disorders, he permitted it to be made publick for a general Good, that to those labouring under these miserable Ailments, might know where to meet with a safe and most certain Cure, which it accomplishes in so short a Time, and with such Ease and Pleasure (a few Drops of it being a Dose, highly agreeable to the Palate, and comforting to the Stomach and Bowels) as is almost incredible to relate.

But the taking one Bottle of it only, demonstrates its prodigious Efficacy to every one, and the Patients soon find all Numbness, Deadness, and Shaking, or Resolution of the Nerves, as well as all convulsive, cramp-like, or painful Contractions of them, vanish and return no more; and although these Distempers have been of many Years standing, and whether occasioned by long Illness, fast Living, hard Drinking, or any other Cause; for it performs all that can be wish'd for in Nervous Cases, creates an Appetite, expels Wind, rectifies the Digestion, occasions laudable Chyle, attenuates the blood and Juices, causes a free and regular Circulation of 'em thro' the Capillary Vessels, revives and increases the Spirits, warms, comforts, strengthens, and replenishes the Brain and whole Nervous System, hence the Sinews, Tendons, Ligaments, and all the enscathed Parts are invigorated, the Limbs restored to their pristine Steadiness and Strength, and the Palsy and all Paralytick Disorders and Nervous Decays suddenly cured by it, to the Admiration of the Patients themselves, and all about them.

This sovereign and incomparable Elixir is permitted to be sold only at Mrs. Holt's, at the Cross-Keys and Sign in Cornhill, near Stock's Market, at 3s. 6d. a Bottle, with printed Directions.

For the immediate Cure of BARRENNESS in WOMEN, tho' of many Years Continuance, and proceeding from what Cause soever,

And altho' IMPOTENCY in MEN, however occasion'd, or of so long Standing,

The Famous and Inestimable PROLIFICK ELIXIR,

The highest, richest and most powerful Cordial in Nature, is recommended,

BEING the only true and infallible Cure

for BARRENNESS in Women and IMPOTENCY in Men in the Universe, and which it at once accomplishes without the least Trouble, even after all other Remedies have fail'd, as Thousands have experienced, and that by promoting the cheerful Curricule of the Blood and Juices, raising all the Fluids from their languid, depressed State, to one more florid and sparkling, opening all Obstructions, fortifying the Nerves, encreasing the Animal Spirit, restoring a Juvenile Blood, and evidently replenishing the crispy Fibres of the whole Habit, with a generous Warmth and balmy Moisture, and thereby invigorating it to such a Degree as not to be imagin'd, but by those who have experienced how exceedingly and sensibly it renovates, recruits, and powerfully strengthens all the Animal Faculties, and Generative Powers in both Sexes. It increases a bright, lively Disposition, banishes Melancholy, and inspires Mirth and Gladness of Heart beyond Expression. Aundance of Ladies, who for several Years were deemed incurably Barren, have after twice taking it, conceived and become Fruitful; and great Numbers of Gentlemen, who by fast living, or otherwise, had render'd themselves incapable of Procreation, have soon been enabled by it to propagate their Species, inasmuch, that very many illustrious Families, who for want of Children, were almost inconsolable, are now blest with happy Issue, and are (under Providence) indebted to this Great Medicine for their Heirs. It rectifies all Disorders of the Stomach, creates an Appetite, procures a good Digestion, and in all Weakness of Body, or Decay of Constitution of any Kind, is a most infallible Restorative, and even keeps back the Effects of Old Age itself. It is to be taken but a few Drops at a Time, has a very fine Flavour, is pleasant to the Palate, Cordial to the Stomach, and can be had only at the Two Blue Posts in Haydon-Yard in the Minories, at 5s. a Bottle, with Directions.

An Infallible REMEDY

For BROKEN-WINDED HORSES,

Which has been published and sold

many Years before any Counterfeits in other Forms appeared, and highly commended from one Friend to another. The vast Quantities that have been sold do also verify the Truth of its Efficacy and Virtues, which most perfectly cures them, after many things premised have been ineffectual, to a Wonder, in a small time, without Confinement, by attenuating and opening the Globules of the Lungs dried up, and all the Passages obstructed by Humours dripping thereon, occasion'd by hard Riding, Colds, &c. It causes presently a free Perspiration, renewing its Force, Vigour and Length again, as well as ever.

It immediately cures those Horses only a little touch'd in their Wind, as also all continued Coughs, Colds, Wheezing, &c. being excellent in preventing many other Distempers incident unto them, by maintaining, preserving, and continuing a good Breath.

And in a word, by this very Medicine alone, many Horses have been made so perfectly sound, that they have been sold and valued at 10 and 12 l. which by being Broken-winded, could not before be sold for 3 or 4 l.

It is sold at Mr. Sandwell's Toy-Shop at the Griffin, the Corner of Buckler's-Hury in the Poultrey, at 4 s. 6 d. the Quart Bottle, with Directions for taking it; and no where else in England.
